Sylvia/Brandon --

I assume you may have received this directly in other ways, but I just realized this came in while I was on leave. Good straight forward letter from Steve.

Dan Opalski

Subject: PPRTV / ACL for sulfolane ---- July 19th, 2012 correspondence ---

Loren,

Attached is a letter outlining the toxicological data that we have at this point in time for sulfolane, and the Department's position regarding the alternative cleanup level for sulfolane to be used in developing remedial action objectives for the Flint Hills Refinery site.

I look forward to next Wednesday's meeting of the Flint Hills Technical Project Team.

My thanks to you for your assistance in moving things forward with all aspects of the site characterization and remediation.

Steve Bainbridge

Contaminated Sites Program Manager
